

Cascade Gateway Border Data

Note: All data is personal vehicle passengers crossing into the US. Does not include pedestrians, bus, or rail passengers. (based on [US Bureau of Transportation Statistics](#))

Percent Change 2019-2023

Blaine

Pt. Roberts

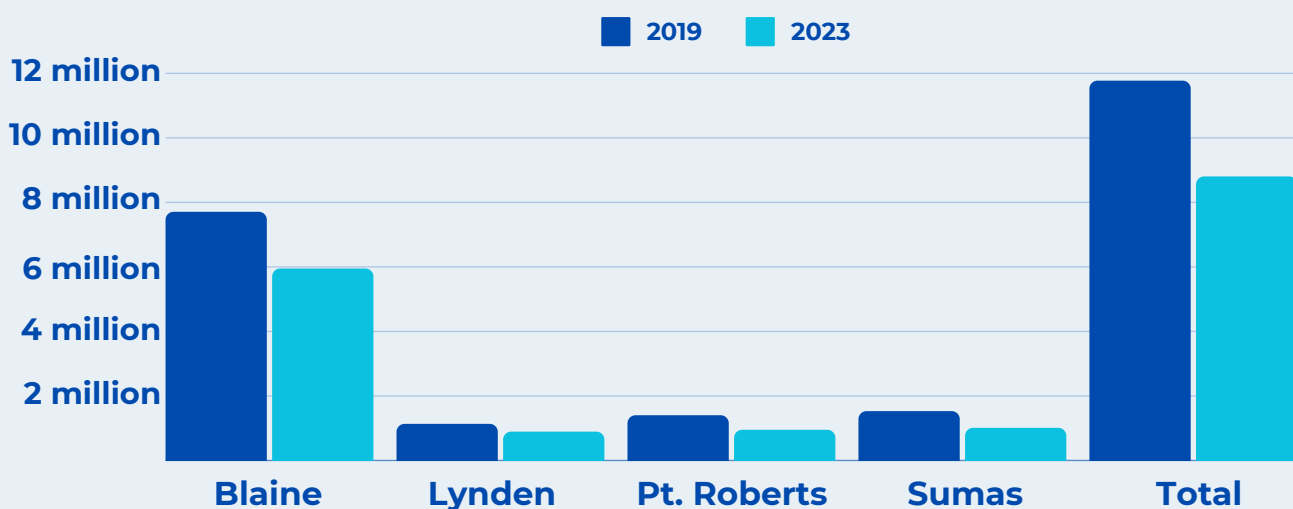

Lynden

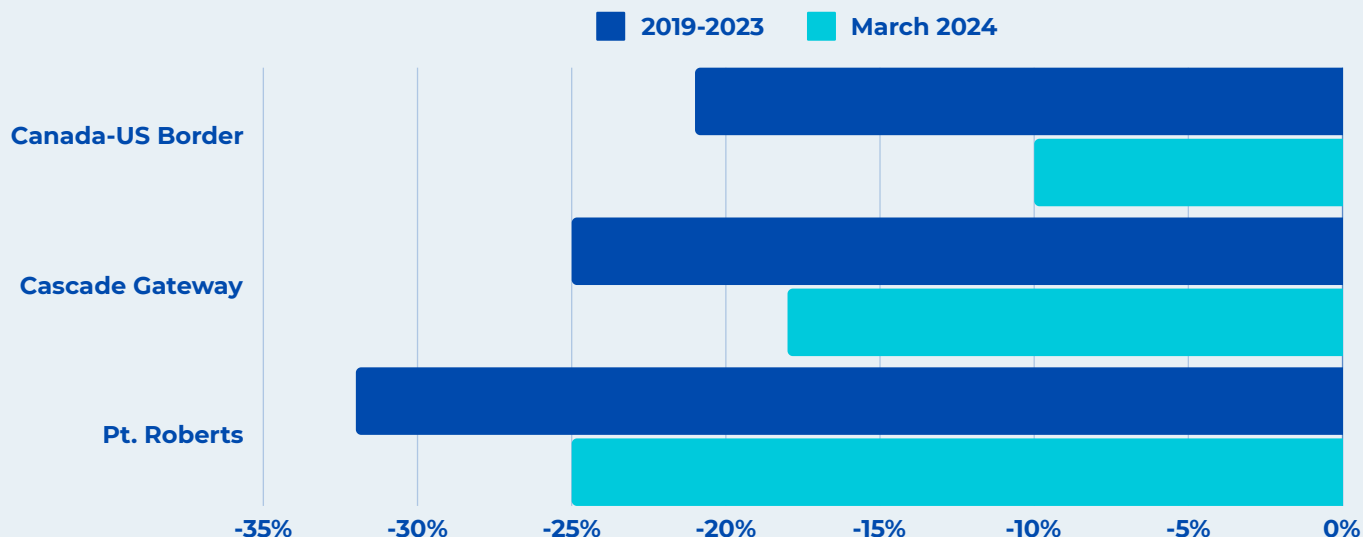

Sumas

US entries at the Cascade Gateway were down 25% in 2023 compared to 2019. Pt. Roberts volumes were down 32%, which is higher than the average for other regional crossings when combined, but slightly better than Sumas.

Cascade Gateway 2019-2023

Border Crossing Percent Change

Compared to the national scale, recovery at our regional crossings has been slower when comparing 2023 to 2019 as well as the month of March 2024 (latest available data) compared to March 2019. However, volumes at all three scales are steadily recovering post-pandemic. Pt. Roberts lags behind the national average and behind the Cascade Gateway overall (which includes Pt. Roberts, Sumas, Lynden, Blaine).
